

Get control of WordPress with version control

@DaveKonopka

http://bit.ly/wcp11_vc

Why bother ?
Tools: The options

VERSION CONTROL

WordPress under control

Workflows

Q&A

VERSION CONTROL

Why bother?

work with a net

manage streams

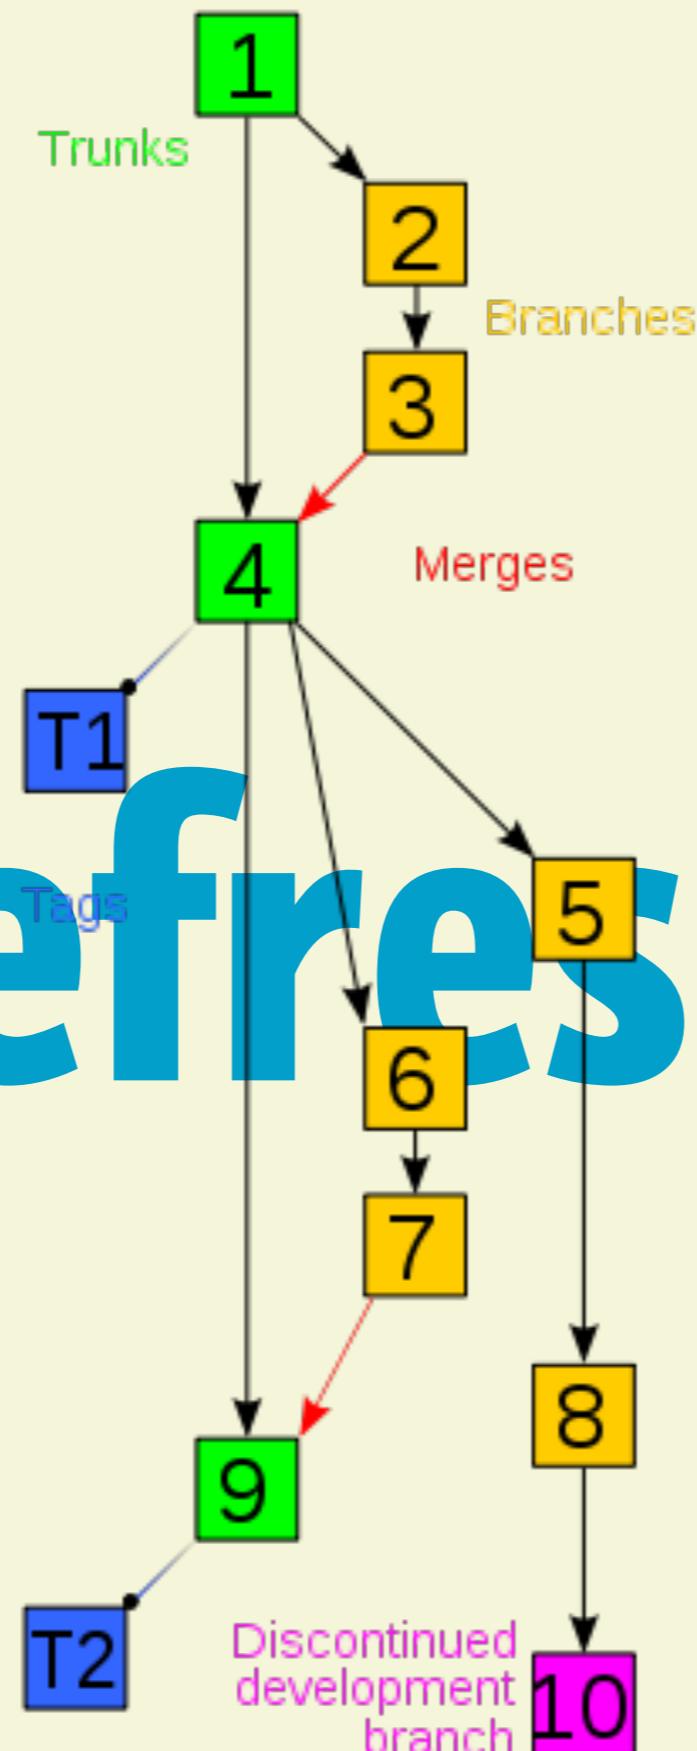

collaborate
(even if only with your future self)

synchronize

a refresher

TOOLS

The options

centralized
subversion

git
distributed

clone
staging area

git terms

remotes
push/pull

WORDPRESS

Under control

**manage custom
plugins & themes**

**manage entire
WordPress sites**

O.P.P.

other people's projects

deploy

databases

WORKFLOWS

Pleasure principal

learn
by
trying
